About the Organizer GSPMA

Gujarat State Plastics Manufacturers Association (GSPMA) was established in 1970. This is one of largest apex body promoting development and growth of the plastic industry. With over 3500 members, it brings together all plastic manufacturers and processors in Gujarat.

GSPMA is represented in all important central, state and non-governmental bodies. With a vision to facilitate indian plastics industry globally, GSPMA has played a vital role in founding Plastindia Foundation in 1987 and serves as the founder promoter.

AIMS & Objectives of GSPMA

- Developing, Promoting & Protecting the interest & Interdependency of the plastics processing industries.
- Organizing and supporting exchange Programs, Seminars, Discussions, Lectures and publications.
- Educating end-users to the importance and benefits of plastics in daily life.
- Providing young minds and citizens with information on plastics, empowering them with perspective and ideas to maintain a healthy urban environment.

Importance of Plastics:

Can you imagine world without Plastics ?Plastics are responsible for countless facets of the modern life we enjoy today — from health and well being, nutrition, shelter and transportation to safety and security, communication, leisure activities and innovations of industry. Plastics improve our lives; bring us joy, convenience, efficiency and connection to others. Sometimes these materials even save our lives. In short, plastics' flexibility and adaptability enable them to provide many different solutions in an increasingly complex world. From sunrise to sunset, as you go through your typical day, take note of the role plastics play in your life — a role often taken for granted: You awaken to the sound of your alarm clock/radio, you make coffee, you use your toothbrush and hairbrush, you put on clothing, you fill your reusable lunch bag, you drive your car (putting your toddler in a child safety seat) or ride your bicycle (don't forget that helmet!), you listen to your iPod, you make a few calls on your smartphone, you work at your computer, you enjoy a bottle of water, you remove the protective film from around the meat and vegetables you'll prepare for dinner ... And that only begins to touch the surface of the importance of plastics in your everyday life.

Economic Benefit:

With an abundance of beneficial uses that touch every aspect of modern society, it will certainly contribute it's best in achieving India to 5 trillion dollar economy soon. Plastics play an important role in country's export and contributes significantly to government exchequer.

Benefits of Plastics:

Can you imagine if everything you depend on in your life that is made of plastic suddenly disappeared? Most likely, cherished items that you did not even realize were made of plastic would be gone. Plastics are a vital component of thousands of products we rely upon every day.

Core Sectors:

Plastics have major share in the following : • Agriculture • Automobile • Pharma & Healthcare • Information Technology • Aerospace • Packaging • Moulded furniture • Sports • Energy Saving • Toys

Why PLEXPOINDIA?

PLEXPOINDIA will be the unique show highlighting the importance of plastics and will explore the business opportunities for all those connected with Plastic Industry as well as new aspirants.

Why Plexpo different from other exhibition?

PROPLAST - This expo will be products specific where the manufacturers of different plastic products will also participate over and above regular exhibitors. It is expected that 500 plus exhibitors will witness this event. End users of plastic products from different sector will also be invited to visit this expo. This will create unique platform for business. More than one lac visitors will visit this expo.

Why Exhibit?

- Expected participation of over 500 exhibitors from across the globe.
- A wonderful opportunity to network with decision makers and delegates from the Indian as well as Asian, African, European Middle Eastern & USA Region
- Cost effective & targeted medium to showcase your latest products & technologies.
- To expose the industry and potential investors to the latest trends and technologies available.
- Expand your network of industry contacts & develop new customers and meet industry experts of the globe.

Scope of PLEXPO INDIA 2024

It is our privilege and honor to invite you to PlexpoIndia 2024 - 9th International Plastic, Packaging, Printing, Converting & Rubber Industries Exhibition, which will take place at Ahmedabad.

'PlexpoIndia' International Industrial exhibition : GSPMA organizes International Plastic Exhibition every 3 years for the growth & development of plastic industry in India.

The exhibition is aimed at creating a strong and effective platform for buyers & sellers networking, launch and display of new technology, tie ups etc.

GSPMA is the first plastic trade association who organized first-ever Plastic Trade Exhibition in India.

- PlexpoIndia 2024 devoted to promoting excellence in the field of plastics processing and making Gujarat & India a preferred sourcing base for plastics processing machineries and plastics products.
- PlexpoIndia 2024 showcase of Investment Opportunities, Latest Technologies and Manufacturing Capabilities
- 500 Exhibitors from all over the world.
- Participation from all over the World with expectations of more than 10,000 Business Visitors.
- Live Demonstration of Plastic Machineries for Moulds, Printing, Packaging Products etc.
- Emerged as one of the top Indian Plastic Exhibitions
- To be mounted and spread across 25000 + sq. meters area.
- Business worth INR 1500 Corers expected to be generated.
- Visitors & Buyers expected from all over the World.
- A grand hub to Explore everything related to Plastic World.

RAW MATERIALS :

- Polymer and Resin
- Additives, Adhesive & Glues
- Coating Compounds
- Intermediates
- Blend and Alloys
- Master Batches, Additives, Fillers
- Chemical Intermediates, Colorants
- Dyes & Dye Stuff, Fillers / Fine / Inorganic Chemicals
- Foams & Intermediates, Master Batches, Petrochemicals
- Resins Intermediates, Reinforcing Fibres & Materials
- Synthetic Fibres, Starting Materials & Intermediates
- Thermo Sets & Thermoplastics

MACHINERY AND PLANT FOR PROCESSING :

- Moulding Machines
- Plastic Process Machineries
- Injection Moulding Machines
- Extruders & Extrusion Lines
- Blow Moulding Machines
- 3D Printing
- Mould & Dies
- Auxiliary / ancillary Equipments
- Die Casting Machineries
- H.D.P.E. Pipes, PVC Pipes
- Electric Ind. Heaters
- Water Storage Tanks
- Gear Box
- Bottom Sealing & Cutting Sealing Machine
- Multi-Layer Film, LDPE, LLDPE
- HMHDPE Monolayer Plastic Plants
- Packaging Machines
- Shrink Film Plant
- Lamination Plant
- Screw Barrel
- Measuring, Control & Test Equipments
- Rotating Moulding Machines
- Welding Machineries & Acc.
- Recycling
- Electrical & Electronics
- Plastic Pipe Plant
- Plastic Grinder Machine
- Bending & Folding Machines
- Bag & Sack Making Equipments
- Cutting Machines, Printing, Packaging, Plating, Lamination, Plants
- Splitting Machines, Peeling Machines
- Thermoforming Machine

PLASTIC PRODUCTS USED IN :

- Agriculture • Automobile • Pharma & Healthcare • Information Technology • Aerospace
- Packaging • Moulded furniture • Sports • Energy Saving • Toys

PRINTING :

- Adhesives And Glues
- Applications For Nanotechnology
- Applications For Printed Electronics / Printed Functionalities
- Chemicals
- Coating / Varnishes
- Control, Feed-back Control And Drive Technology
- Data Processing Services
- Digital Offset Printers
- Digital Printing Machines And Digital Printing Systems
- Encoding And Identification Materials
- Encoding And Identification Systems
- Films / Foils
- Flexographic Printing Inks
- Flexographic Printing Machines
- Gravure Printing Machines
- Hybrid Printing Machines
- Machine Transportation And Machine Mounting
- Measuring And Testing Equipment
- Measuring And Testing Tools
- Offset Printing Inks
- Pad / Tampon Printing Machines
- Print Heads And Technology Software
- Printing Machines And Systems For Special Printing Applications
- Research And Development
- Rollers, Cylinders And Sleeves
- Screen Printing Machines
- Sheet-fed Offset Printing Machines
- Textile Printers
- Trade Directories
- Used Machinery Dealers
- Ventilation Systems
- Wide Format Printers
